

What is Palliative care?

- A way to continue living your best life despite serious and chronic illness.
- A way to manage your care & your symptoms
- Can help at any stage of illness & works alongside curative treatment
- Care centered around you from a knowledgeable team

Who is Palliative Care For?

- Anyone struggling with a serious illness across the lifespan
- Anyone who is seeking a higher quality of life despite their serious illness
- Anyone who wants their uncomfortable symptoms managed while they're progressing through their personal care journey
